Many hospitals adopted the Braden Scale as a tool for pressure ulcer risk assessment. Sensory, activity, and mobility are three of six components (50%) of the Braden Scale. The largest section includes a comprehensive systematic assessment often based on body systems or functional patterns. The circumstances of admission affect the data collection.

The Seminole Wars (also known as the Florida Wars) were three related military conflicts in Florida between the United States and the Seminole, citizens of a Native American nation which formed in the region during the early 18th century. Hostilities commenced about 1816 and continued through 1858, with two periods of uneasy truce between active conflict.
