Tobacco addiction remains a substantial problem in the United States and worldwide. Of those individuals who have ever tried smoking, about one-third become daily smokers (USDHHS 1994, p. 67). Of those smokers who try to quit, less than 5 percent are successful at any one time (Centers for Disease Control and Prevention [CDC] 2002, 2004). Although not all smokers become nicotine dependent, the ...

Buddhist meditation is the practice of meditation in Buddhism. The closest words for meditation in the classical languages of Buddhism are bhāvanā ("mental development") and jhāna/dhyāna (mental training resulting in a calm and luminous mind).. Buddhists pursue meditation as part of the path toward liberation from defilements and clinging and craving (), also called awakening, which results ...

In this study stone pagodas from ancient Japan (7th to 9th centuries) were analyzed. The findings show that there are some apparently influenced by the Korean Peninsula and two other types. While there are examples of the former type that are large and serve as temple buildings, the latter are located in mountain forest temples. I am of the opinion that stone pagodas were important mechanisms ...

That pleasure is in itself objectless is sometimes supposed in theorizing in behavioral neuroscience, as well (e.g., Robinson and Berridge, 1993, pp. 261ff.). The same assumption is the basis for the psychologist and emotion specialist James Russell's notion of core affect, which places an in-itself objectless feeling good at the ground level ...
