A good appraisal system is one that saves time as well as cost. Also, this helps a company to get the maximum benefit. Instead of wasting all their time on managerial tasks, HR personnel could focus on other important jobs. 6. Continuous Feedback. Modern appraisal systems have done away with the annual performance review model.

Real estate appraisal, property valuation or land valuation is the process of developing an opinion of value for real property (usually market value). Real estate transactions often require appraisals because they occur infrequently and every property is unique (especially their condition, a key factor in valuation), unlike corporate stocks, which are traded daily and are identical (thus a ...
